Additional Information or Comments

I realize there is some concern about my recent resignation from, the Planning and Zoning Board, when I resigned from that board it was because I was recently promoted into a new position and was not sure how that was going to go and did not want to jepordize my job, since then my new position has been working out well and I have alot more flexibility than I first thought, and I would be able to teend all commission

meetings, workshops, and budget hearings. There was also some concern about appointing someone with no political interest and no agenda, well I also I fit that requirement. In the past I have been extremely politically active, but I have come to realize that local government is no place for partisan politics, the most important thing for the city of Deltona is to come together as a community and find a way to attract business. I realize this is only a temporary position, but think I would add alot to the budget procees and add to the important dialogue of the c ommision. I would welcome all of you to call me and have a discussion as to why I want to fill this temporary commission seat. Thank You for your time and consideration

I declare the foregoing facts to be true, correct, and complete.
