## City of Deltona's Energy Conservation Exposition Features Electric Vehicles

**February 20, 2012**— The City of Deltona's upcoming Water & Energy Conservation Exposition will bring a little four wheeled excitement to Deltona, this Friday February 24<sup>th</sup>. In addition to the handouts and information from more than 10 different companies and organizations, visitors will be able to get "up close and personal" with four diverse vehicles that operate with the latest green technology.

Business owners will be able to check out the electric Ford Transit Connect, as well as a propane-powered utility van, sponsored by Ferrell Gas. Personal cars will be represented by state of the art electric autos... with Nissan's all electric LEAF; and Chevrolet's sleek electric-hybrid family car the Volt.

The Florida Green Building Coalition will offer seminars throughout the day on water and energy conservation. The Exposition is open from 9:00am until 4:00pm, at Deltona City Hall at 2345 Providence Blvd. Each visitor will receive one Lights of America LED light bulb while supplies last. For additional information on the event, call the City of Deltona's Grants Coordinator, Cheryl Atkins, (386) 878-8853.
