City of Deltona's Light Bulb Coupons in High Demand

February 13, 2012— The City of Deltona instituted a rebate program for energy efficient light bulbs, for its residents in late October of 2011. The program, part of an energy-efficiency federal grant, allows for a \$ 10 coupon to be used for the purchase of either CFL or LED light bulbs. Since the program's inception, it has become extremely popular, with coupons being redeemed at Anderson Ace Hardware, or the Lowe's or Wal-Mart, all located in Deltona.

Because of the high volume of redemptions, the Lowe's location has exhausted its share of the grant funds for the coupons. Effective February 14th, until the remainder of the grant has been dispersed; all remaining coupons can be redeemed at either the Anderson Ace location or the Deltona Wal-Mart. It is anticipated the balance of the funds will last through the end of March.

Coupons can be picked up at the next Energy Seminar, scheduled for Friday March 9th. This seminar will review water conservation around the home, and begins at 3:00pm in the Scrub Jay Room at the Deltona Regional Library at 2150 Eustace Rd.
